Health and medical research	<ul style="list-style-type: none"> Thank You!! I just wanted give my personal thank you on behalf of my family and especially my 12 year old son Luke. He has just finished 3years and 3 months of chemotherapy treatment after being diagnosed with ALL in 2004. He is now so happy and

	<p>healthy and without your hardwork in research he wouldn't be here. Because of your research you saved Luke's life. So thank you isn't quite enough but keep up the amazing work you all do!! THANK YOU!!!!!! From the Stokes family in Bayswater WA Lyndle Stokes</p>
health and medical research	<ul style="list-style-type: none"> I sent a message of thanks on the website but in addition I would be happy to share my story. I was diagnosed with lymphoma in 2004 and underwent various chemotherapy, monoclonal antibody treatment and stem cell harvest. As a result of past medical research I am still alive today! Also, I am pleased that, following my diagnosis, colleagues at my university (GU) agreed to set up a project on Lymphoma which now includes a PhD student. We have personally raised funds to support this medical research and it shows what can be achieved at a community level to get some sort of program of research happening. The project is run my Professor Lyn Griffiths and her team in the genetics field. Who knows where the cure for cancer will come from but the more research the better! Bev
